

Bakery Mix

Mennel is proud to offer customized industrial and foodservice bakery mixes to customers around the world. Today, we produce over 200 unique dry mix SKUs to meet all your premix and custom mix product needs.

We work hard to ensure every mix is created with only the best-in-class products and flexibility in mind. As a result, every recipe is unique and meets the following criteria:

- Made from scratch taste
- Easy-to-use
- Consistent results
- Tolerant formulas

Capabilities

With Bakery Mix and Food Service locations in Ohio and North Carolina, you can count on Mennel to deliver high performance products – each and every time. It's all part of our commitment to bringing you our best.

Our Martel facility is the largest volume dry mix facility in North America with the capability of producing 2.1 million pounds or 600 batches per day of finished goods. At Renwood Mills, daily production equates to approximately 795,000 pounds of finished product or 300 batches, with a focus on producing the highest quality baking products in the South.
