*Field performance data came from recent Virginia Tech and North Carolina State Wheat Performance Trials, private breeders and Uniform Southern Red Nurseries while the milling quality data resulted from the publications and in-house evaluation of The Mennel Milling Company. Field yield score: 5 - 1 (Highest - Lowest); Test weight score: 5 - 1 (Highest - Lowest). Milling quality score: 5 - 1 from the best to the poorest; Maturity: E = early, M = medium, L = late; Scab resistance: 5 - 1 from the best to the poorest.

+ Mennel

Mennel is proud to participate in the Great Lakes Yield Enhancement Network (YEN). YEN is a ground-breaking cross-border collaboration that connects farms with agronomists, academics, extension specialists, agriculture organizations, and more.

Visit mennel.com/yen to learn more about future opportunities.
